## PROJECTS

### Cure&Care – A Hospital Management System

Sept, 2021 - June, 2022

- Made a hospital management system project whose frontend is designed using HTML, CSS and Javascript and had made the use of Bootstrap as a CSS framework. It uses PHP and MySQL as backend.
- It was a team project and I was more responsible for frontend development.

### A Tourism Management System

May, 2022 - June, 2022

- Made a tourism management system project that manages the database of tourists. It uses HTML, CSS and Javascript for frontend development and use of PHP and MySQL for backend development. It was a team project and I was more responsible for backend.
